Variance Details	
Code Name:	2014 IFC
	901.6
Conditions:	The total building is approx 135k sq ft and was a big box retail with some rack sprinkler systems. Athome will occupy approx 100k sq ft of the building, leaving the remaining portion unoccupied but fully protected by a sprinkler system. The plans for that work have already been approved. We just need, per Sam Bruner, a variance to remove two old racking risers no longer in use.
	Prior to Athome taking over the facility, the racking was removed but the old risers were left in place. Sam Bruner said he would like to see the old risers remover as they are no longer in service. We did not remove the old racking or sprinklers to them.
DEMONSTRATION THAT PUBLIC HEALTH, SAFETY, AND WELFARE ARE PROTECTED:	
	1=Non-compliance with the rule will not be adverse to the public health, safety or w
2	2= Applicant will undertake alternative actions in lieu of compliance with the rule to ensure that granting of the variance will not be adverse to public health, safety, or welfare. Explain why alternative actions would be adequate (be specific).
Facts:	Sam Bruner from Pike Township FD told us to file a variance to remove the in rack fire system riser that is no longer in use. Cap off the riser so the equipment does not have to be maintained.
DEMONSTRATION OF UNDUE HARDSHIP OR HISTORICALLY SIGNIFICANT STRUCTURE:	
	Imposition of the rule would result in an undue hardship (unusual difficulty) because of physical limitations of the construction site or its utility services.
Υ	Imposition of the rule would result in an undue hardship (unusual difficulty) because of major operational problems in the use of the building or structure.

Imposition of the rule would result in an undue hardship (unusual difficulty) because of excessive costs of additional or altered construction elements.

architecturally or a historically significant part of the building or structure
